

HEALTHY COOKIES MANUFACTURING PLANT

Project Description: A cookie or biscuit is a baked or cooked food that is typically small, flat and sweet. Cookies are made in a wide variety of styles, using an array of ingredients including sugars, spices, chocolate, butter, peanut butter, nuts, or dried fruits. Some major players are Britannia Industries Limited, Parle Products Private Limited, ITC India Limited, Unibic Foods India Pvt Ltd, Cremica Food Industries Ltd., etc.

Raw Material: The raw materials are Wheat flour, oats, millets, oil, honey, Jaggery etc.

Market: India is one of the largest producers of biscuits in the world, with huge potential for export. The organized biscuit market in India is estimated at Rs 37,000 crore. Due to increase in at-home consumption during the pandemic, the Indian biscuit market saw a record rise. India became the world's third-largest biscuit maker after 2005. The India dry cakes and cookies market is expected to grow at a CAGR of 11% in the forecast period of 2022-2027. With customers increasingly opting to substitute snacks for their daily meals and raising consciousness of consuming nutritious foods with high-quality ingredients, the market for healthy snack foods has increased considerably in recent years.

Machines & Equipment: Dough Mixer – Dough Feeder – Dough Sheeter – Rotary Biscuit Cutter – Tunnel Oven – Conveyer – Biscuit Stacker – Packaging Machine.

Minimum Viable Plant Capacity	—	1000 Kg/Day
Plant and Machinery Cost (approx.)	—	1.5 – 2.0 Cr
Minimum Viable Project Cost (approx.)	—	3 – 4 Cr
Operational Days / Annum	—	300 days with 20Hr/day
Area required (approx.)	—	300 – 400 m ²

NOTE: Above mentioned figures and details are tentative. We recommend going for Techno-Economic Feasibility Study to understand the exact details of the project.

Final Products:
